

Make a 2–4 minutes demo of ABTalks: Recruiter and Candidate.

Your brief

Record a 2–4 minutes screen video that shows ABTalks working from both sides: a recruiter looking for talent, and a student building proof of skill. This guide gets you into both sides and shows the main screens. It is a starting point, not a script to copy.

- **Show both sides.** Start from the website's landing page, sign up as a recruiter and as a candidate, and connect the two.
- **Explore.** There is more in the product than this guide covers. Click around and find the features you find most interesting.
- **Be creative.** Your angle, story, voice-over and editing are yours. Two demos that look the same are a missed chance.
- **Keep it tight.** 2 minutes minimum, 4 minutes maximum. Cut anything that does not help the story.

Tip: you need two logins at once. Use two Chrome profiles or two different browsers (or one normal window and one Incognito window): one for the recruiter, one for the candidate. Then you can switch between them on camera without signing out.

Setup: Get a temporary email (applicable only if you have not registered with an Organization Mail ID)

A temporary email inbox works, and you can use one for the candidate account too.

Step 1. Open <https://temp-mail.org> and copy your address

A temporary address is created for you as soon as the page loads. Click Copy. Keep this tab open: the 6-digit code will arrive here. Click Refresh if it does not show up straight away.

- 1 Your temporary address appears automatically
- 2 Copy it
- 3 Refresh to check for the ABTalks code
- 4 The code email lands here

Figure 1 — temp-mail.org: copy the address, refresh for the code

Heads up: temporary inboxes are not private and expire. Use them only for this demo, never for anything real. If the tab closes you may lose the address, so finish sign-up in one go.

Part A — Recruiter onboarding

Step 2. Start from the landing page

Open <https://www.abtalks.in>. Click Get Started (top right), then Recruiter. (Post a requirement leads to the recruiter side too.) Starting here shows the full journey a real recruiter takes.

- 1 Get Started (top right)
- 2 Recruiter: opens the recruiter sign-up
- 3 Candidates: opens the student sign-in
- 4 Post a requirement: also leads to the recruiter side

Figure 2 — Landing page: Get Started, then Recruiter

Step 3. Set up your workspace

You reach “Let's build your recruiting workspace”. It takes about two minutes, has three steps (You, Company, Verify) and needs no password. Click Set up workspace. If you already registered, click Sign in instead.

AB TALKS

- 1 Three short steps: You, Company, Verify
- 2 Set up workspace: start here
- 3 Sign in: if you already registered

Figure 3 — Recruiter onboarding start

Step 4. Step 1 of 3 — You

Enter your full name and paste your temp-mail address as the work email. Click Continue. The live preview on the right shows how you will appear to candidates.

1 You — 2 Company — 3 Verify

STEP 1 OF 3 - YOU

First, who's hiring?

Your name appears when you reach out to candidates. Your work email is how you sign in — there's no password.

Full name

1

Work email

2

Use your company address. We'll send a 6-digit code to verify it at the end.

Your company
company.com

Industry —

Size —

HQ —

Your company card on outreach and job posts

- 1 Company name (the only required field here)
- 2 Website and Industry (optional)
- 3 Company size and Headquarters (optional)
- 4 Continue — the live preview on the right updates as you type

Figure 5 — Step 2: company details

Step 6. Step 3 of 3 — Verify

Check your details (use the pencil icons to fix anything), tick Terms of Service and Privacy Policy, and click Send code. Go to your temp-mail tab, refresh, open the ABTalks email and enter the 6-digit code. The code expires after 10 minutes.

✓ You — ✓ Company — ③ Verify

STEP 3 OF 3 · VERIFY

Check your details

Next we'll email a 6-digit code to **newef28105@meinvr.com** to verify it's yours.

1

YOU	Raja newef28105@meinvr.com	
COMPANY	Acme Tech · Other · 1-10 people · Bengaluru	

2

☒ I agree to the [Terms of Service and Privacy Policy](#).

☒ Send me occasional updates about talent-pool access and recruiter product news.

← Back Send code → 3

- 1 Check your details (pencil icons to edit)
- 2 Tick Terms of Service and Privacy Policy
- 3 Send code, then enter the 6-digit code from temp-mail

Figure 6 — Step 3: check details and send the code

Step 7. You are in: the Scout home screen

Your workspace opens straight away. The home screen asks “Who are you looking for?”. Type a brief in plain English and press Search. Mention a location, years of experience, a role, an education qualification and skills for better matches. Example: “AI Engineer in Delhi with 4+ years of experience in Agentic AI”.

Figure 7 — Recruiter home (Scout): type a brief, press Search

Step 8. Understand the credit system

Open Credits from the top-right pill. Every recruiter starts on the Free plan with \$200.00 of credits (one credit is one dollar).

Action	Cost
Search and assessments	Free
Unlock a candidate's contact details	\$0.50 each
Re-open a candidate you already unlocked	Free
Starting balance	\$200.00 (covers about 400 unlocks)
For more credits	Email team@abtalks.in

- 1 Credits balance, always top right
- 2 Starts at \$200.00 (one credit = one dollar)
- 3 Contact unlock costs \$0.50; re-opening the same person is free; search and assessments are free
- 4 \$200 covers about 400 unlocks
- 5 Need more? Email team@abtalks.in (no online purchase yet)

Figure 8 — Credits & plan, with credit history

Every credit movement shows in Credit history, newest first. A great demo moment: unlock one candidate, then show the balance drop by \$0.50 and the new line in the history.

Step 9. Work the hiring tools

Everything a recruiter needs is in the left menu. Projects keep your searches together, so you can come back to them.

Figure 9 — Search history, work menu and credits

- **Search history / projects:** every search is saved in a project with its result count. Open one to see its candidates.
- **Candidate profile and unlock:** click a candidate to read their profile beside the results. Contact details stay hidden until you unlock; the dialog shows the cost before you confirm.
- **Pipeline:** move people through stages (Sourced, Shortlisted, Contacted, Screening, Interviewing, Offer, Hired, Rejected, Withdrawn). Stages stay put after a refresh.
- **Assessments:** build a test (sections, single choice, multiple choice, written answer, file upload, duration, pass mark), assign it, and see who started, finished and scored.
- **Jobs:** post a job and control when it goes live and closes. Applicants join your pipeline.
- **Messages:** email a candidate from inside ABTalks; replies come back to you.
- **Analytics:** your own searches, views, shortlists, unlocks and outreach.

Part B — Candidate side

Step 10. Sign up as a candidate

In your second browser profile, open <https://www.abtalks.in>, click Get Started, then Candidates. Sign in with Google, or choose Email code and use a temp-mail address (tick Terms, then enter the 6-digit code). A new email creates a new account.

The screenshot shows the ABTalks login page with the following elements and annotations:

- 1** (Red circle): Points to the "Sign in with Google" button.
- 2** (Red circle): Points to the "Email code" button.
- 3** (Red circle): Points to the "Email" input field.
- 4** (Red circle): Points to the "I agree to the Terms of Service and Privacy Policy" checkbox.

Other visible elements include:

- ABTalks logo and tagline: "Build your coding habit. Get discovered."
- OR USE YOUR EMAIL separator.
- Password input field with a "Forgot password?" link.
- Sign In button.
- Cookie & Privacy Choices sidebar with "Accept all", "Necessary only", and "Preferences" buttons.
- Footer text: "Built by Anil Bajpai's ABTalks community".
- Red callout boxes on the right: "1 Easiest: Sign in with Google", "2 No Google? Use 'Email code'", "3 Any email works, e.g. a temp inbox", and "4 Tick Terms for email sign-up".

Figure 10 — Candidate sign-in: Google or email code

Step 11. Tour the dashboard

The dashboard shows the student journey: Complete profile, Build skills (60 days of daily tasks), Test skills, Get hired. Below it are your learning tracks, your 60-day activity squares and your streak.

- 1 Top menu: Your challenges, Prep kit, Domains, Events
- 2 Side menu (icons)
- 3 Your journey: Complete profile > Build skills > Test skills > Get hired
- 4 Pick up your track (Claude / AI)
- 5 Your 60 days (one square per active day)
- 6 Streak and Achievements

Figure 11 — Candidate dashboard

Step 12. Use the side menu to explore

Figure 12 — Candidate side menu

- **Profile and verified credentials:** the page recruiters judge. Skills earned by finishing a track show as “Verified by ABTalks”; skills typed by hand show as claimed. Certificates can be

checked by anyone at abtalks.in/verify/ plus the certificate ID. Add skills, education and a project so recruiters can find you; there is no visibility switch.

- **Assessments:** tests a recruiter assigned to you. Answers save as you go. Fullscreen exits, tab switches and copy/paste are recorded.
- **Events And Workshops:** live sessions most Saturdays, with a calendar, upcoming and past sessions. Register per session.
- **Marketplace:** spend Synergy points. You earn points from daily task submissions and referrals; your balance shows on the dashboard.
- **Achievements:** streaks, badges and certificates.
- **Jobs:** browse, filter and apply once per job, then track what happened.

- 1 Events And Workshops in the side menu
- 2 See the calendar: live sessions most Saturdays
- 3 Login / Sign Up, then register for a session

Figure 13 — Events and Workshops

Step 13. Try the AI features

- **AI mock interviews:** spoken, not typed. An AI interviewer asks about what you know, follows up on your answers and gives a report that cites what you said. About 15 minutes, 7 questions. Free with any AB Talks account. (abtalks.in/mock-interviews)

- **Help chatbot:** the round chat bubble at the bottom right of every page. It answers questions about ABTalks from approved ABTalks information only, and points to support when it doesn't know. Try asking it something on camera.
- **Learn:** free in-depth courses, such as Agentic AI Systems.

- 1 Spoken out loud, scored from your own answers
- 2 Pick a topic (AI, General); 3 available now
- 3 Take interview: about 15 minutes, 7 questions
- 4 Chat bubble (bottom right): the ABTalks help assistant

Figure 14 — AI mock interviews and the chat bubble

Part C — Explore beyond this guide

This guide does not cover everything. Use this checklist to discover more, and feature what impresses you most. You are not expected to show all of it in 4 minutes.

Feature	Where to find it	Demo idea
Help chatbot	Chat bubble, bottom right	Ask it a real question a new student would have
AI mock interview	Candidate menu or /mock-interviews	Show 20 seconds of the spoken interview and the report
Marketplace and Synergy points	Candidate side menu	Show what effort can be redeemed for
Verified skills and certificates	Candidate Profile; /verify/<id>	Contrast “verified” with “claimed” skills
Recruiter view of a profile	Candidate Profile	Show exactly what a recruiter sees
Learn courses and enroll In Challenges	/dashboard	Open a challenge or cohort and show it is free
Prep kit, Domains, Events	Candidate top menu	Pick one and explain who it helps
Search ABTalks	Search bar at the top	Find a feature or event fast
Live preview during onboarding	Recruiter sign-up, right panel	Show the company card building as you type
Credit history	Recruiter Credits page	Unlock once and show the \$0.50 entry
Assessments loop	Recruiter Assessments, then candidate Assessments	Recruiter assigns a test, candidate takes it

Part D — Plan your edit (Feel free to use your creativity)

Time	Scene	What to show
0:00–0:20	Hook	The problem in one line, and the landing page
0:20–1:20	The student	Candidate sign-up, dashboard, a daily task, profile with verified skills; one AI feature (mock interview or chatbot)
1:20–2:30	The recruiter	Get Started, Recruiter, 3-step onboarding with temp mail, Scout search, a candidate profile
2:30–3:20	The connection	Unlock contact details (\$0.50, balance drops), add to pipeline, assign a test or send a message
3:20–4:00	Your twist	The feature you found most interesting, and a closing line

For a 2-minute cut, keep the hook, the recruiter search and the unlock moment, plus one candidate screen.

Recording tips

- Record at 1080p. Close other tabs, hide bookmarks and notifications, and use 100% browser zoom. You might even choose to explain the demo using voice audio.

- Do the sign-ups once before recording, so the video is not mostly waiting for codes. You can show sign-up quickly, then cut.
- Use fictional names and companies. Never show real personal data, passwords or real email inboxes.

Troubleshooting

What you see	What to do
"Use your work email address..."	You entered a personal email (Gmail, Yahoo, Outlook and similar). Use a temp-mail address.
No code in temp-mail	Click Refresh and wait up to a minute. Then go back and send the code again. Still nothing? Generate a new temp address (Change) and start again.
Code rejected or expired	Codes last 10 minutes and work once. Request a new one.
Lost the temp-mail tab	That address may be gone. Make a new recruiter account with a new temp address.
Already registered	Use Sign in on the onboarding page (top right) with the same email.
Credits running low	Each unlock is \$0.50 from a \$200 start. If you run out, email team@abtalks.in .
Candidate not found in recruiter search	Add skills, education and a project to the candidate profile, then search with those skills.
Candidate Assessments page is empty	A test appears only after a recruiter assigns one to that candidate.

Rules

- If you have created account using temp-email use the account only for the demo.
- Don't enter anyone's real personal data, and don't contact real candidates.
- Unlock only what your story needs.
